**EP 370** 

# **Thermoplastic Rubber Plugs**

Handy pull-tab for easy removal Protects threaded or plain components Withstands continuous temperatures of up to 120 ° C

# TRIPLE ADVANTAGE of PROTEC CAPTOP

**QUALITY.** The pull-tab design allows easy removal, when the tab is pulled the base of the plug moves upwards and inwards and the plug releases in a swift rolling motion which stops any residue being left on the threads or in the bore.

- · The pull-tab design allows easy removal.
- · The rolling release action eliminates debris upon removal.
- · Withstands continuous temperatures of up to 120 ° C.

**AVAILABILITY.** With over 400 million moulded components shipped from our UK logistics center we provide the fastest on time delivery service to all industries of the UK market.

**PHILOSOPHY.** Innovative protective closures at the best price in the market.

Withstands continous temperatures of up to +120°C

### Material:

TPE,

thermoplastic rubber free from plasticisers

#### **Standard Colours:**

yellow, black

# **Individual Productions:**

On request we develop and produce individually tailored solutions next to the standard items of this range: additional dimensions, different materials and new colours

We would be pleased to advise you.
